

Super Efficient Condensing Boilers

Available with or without
Passive Flue Gas Heat Recovery

sustainable solutions
under one roof

HEATING / HOT WATER / VENTILATION

Our QuanTec range of boilers is designed to suit a wide spectrum of installations.

Designed and manufactured in Britain using the latest technology, they provide greater energy savings and low pollutant emissions. The HR28C is also **Boiler Plus** Compliant as standard.

Our flagship models HR28C and our LPG option the HR28CP with integral heat recovery are not only possibly the most efficient boilers on the market but also the smallest of their kind. There is also the HE30C combi available that comes without the Passive Flue Gas Heat Recovery.

With 8 year* Guarantees as standard the QuanTec range is the perfect choice for any household

Features

- ✓ Stainless steel heat exchanger with cool door technology
- ✓ NOx levels of 30mg/kW/h
- ✓ Sermeta full condense stainless steel heat exchanger with inbuilt heat recovery HR28C/CP*
- ✓ Typical running cost savings of up to 26% per year over a non heat recovery combi
- ✓ Lower flue temperatures reduce the plume to an almost invisible level*
- ✓ Horizontal, vertical and flexible flue options
- ✓ Integral heat recovery meaning no increase in cabinet size*
- ✓ Nett efficiencies of up to 110%

*HR28C/CP Models only

QuanTec Model Range and Dimensions

Model	Height	Depth	Width
QuanTec HR28C/CP	780	321	423
QuanTec HR28CP	780	321	423
Quantec HE30C	780	321	423

All components can be replaced from the front of the boiler.

Get Connected with Honeywell Evohome and achieve A+ efficiencies.

The QuanTec Evohome connected pack consists of:

- 1 Evohome wireless controller
- Evohome radiator multi zone kit
- 4 wireless thermostatic radiator controllers
- OpenTherm®bridge to link Evohome with OpenTherm®capable boilers.
